DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Poirier on 11/18/04.

The application has been amended as follows:

In the claims:

Cancel claims 5-9.

REASONS FOR ALLOWANCE

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose the combination of all the limitations recited, including the first and second power supply terminals being connected to pins which are equally spaced from the pins to which the first and second gain resistor terminals are connected for balancing the effect of the package capacitance respectively between the pins connected to the first and second power supply terminals and the pins connected to the first and second gain resistor terminals to reduce the common mode error with frequency.

Therefore, the amended limitations together with the overall structure of a repatterned integrated circuit chip package is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
